

# T.I.P.S

**TRAFFIC ENFORCEMENT  
SERVICES**

## Traffic Information Processing System

*Judicial Branch of Georgia*

### Benefits

- TIPS has the ability to manage all information with respect to traffic citations.
- With an internet connection in the courtroom, data can be entered in real-time.
- Data is housed on AOC servers with double redundancy. This means that if one server fails, the other will still be available.
- TIPS will allow courts to come into compliance with recent legislation requiring that all driving convictions be reported to DDS within 30 days.
- TIPS will decrease overhead costs by eliminating much of the paper and mailing expenses currently required to report to DDS.
- TIPS is offered at NO COST to your court.
- TIPS is completely web-based which means any software updates are done at the AOC.
- DDS will pay forty cents for each citation that is processed electronically.

### Features

- Automatic fund calculations
- Automatic court calendar management
- Court docket management
- Subpoena tracking
- DS912 form printing (other forms also available)
- Reports electronically to DDS—secure electronic ticket transfer
- Print cases by disposition
- Holds partial payments
- Generate remittance reports
- Print citation receipts
- Generate daily reports
- Incident Report
- Warrant Tracking (coming soon!)

## Testimonial:

“As vice president of our council’s criminal and traffic committee, I recognize the importance of having a program that is user friendly and does what (it) was designed to do. I also recognize the number of Probate Courts and other courts throughout Georgia that are without computer traffic programs and how the TIPS program could benefit them.”

The Honorable Judge David Anglin  
Oconee County Probate Court

### Some of Our Current Users

Alamo Municipal Court  
Bibb County State Court  
Chatam County State Court  
Cumming Municipal Court  
DeKalb County Recorder’s Court  
Fannin County Probate Court  
Oconee County Probate Court  
Pendergrass Municipal Court

## Administrative Office of the Courts

Traffic Information Processing System is a web-based software program that serves all classes of courts through facilitation of automation and information sharing.

TIPS was developed by the Administrative Office of the Courts in close association with the Department of Driver Services and the Governor’s Office of Highway Safety.
